

Dependency Tracking with

DEPENDABOT

Elixir Berlin Meetup
08.11.2018, Berlin
Mateusz Korszun
[@mkorszun](#)

 Meltwater

Goal

- Stay up to date with our dependencies
- React faster in case of security updates
- Do something about it

dependabot.com

- Checks for dependency updates
- With configurable schedule
- And configurable update types (major, minor, patch)

dependabot requested your review on this pull request.

You can trigger a rebase of this PR by commenting `@dependabot rebase`.

Dependabot commands and options

You can trigger Dependabot actions by commenting on this PR:

- `@dependabot rebase` will rebase this PR
- `@dependabot merge` will merge this PR after your CI passes on it
- `@dependabot ignore this [patch|minor|major] version` will close this PR and stop Dependabot creating any more for this minor/major version (unless you reopen the PR or upgrade to it yourself)
- `@dependabot reopen` will reopen this PR
- `@dependabot ignore this dependency` will close this PR and stop Dependabot creating any more for this dependency (unless you reopen the PR or upgrade to it yourself)
- `@dependabot use these labels` will set the current labels as the default for future PRs for this repo and language
- `@dependabot use these reviewers` will set the current reviewers as the default for future PRs for this repo and language
- `@dependabot use these assignees` will set the current assignees as the default for future PRs for this repo and language
- `@dependabot badge me` will comment on this PR with code to add a "Dependabot enabled" badge to your readme

Additionally, you can set the following in your Dependabot [dashboard](#):

- Update frequency (including time of day and day of week)
- Automerge options (never/patch/minor, and dev/runtime dependencies)
- Pull request limits (per update run and/or open at any time)
- Out-of-range updates (receive only lockfile updates, if desired)
- Security updates (receive only security updates, if desired)

Finally, you can contact us by mentioning `@dependabot`.
